

SHREYA GOTURI

AI & Data Science Student

☎ 8904632594 ✉ shreyagoturi@gmail.com 🔗 LinkedIn 🐙 GitHub 📄 LeetCode 📍 Chikodi, India

PROFESSIONAL SUMMARY

Artificial Intelligence and Data Science student with hands-on experience in Python, SQL, machine learning, data analysis, and software development. Built AI-driven, data-focused, and application-based projects using Python and modern development tools, with a strong foundation in problem solving and programming.

EDUCATIONS

KLE College of Engineering and Technology | Chikodi Sep 2023 - Jul 2027
Bachelor of Engineering in Artificial Intelligence and Data Science (B.E) CGPA : 8.9

PROJECTS

AI-Enabled Solar Self-Charging Autonomous Drone for Precision Agriculture Jan 2026 - Present

Model Training and Testing

- Developed an AI-based computer vision pipeline for agricultural monitoring and crop disease detection.
- Applied CNN-based image classification and YOLO-based object detection to analyze agricultural images.
- Performed image preprocessing and augmentation using Python and OpenCV for model training and inference.
- Designed GPS-based field mapping and smart irrigation modules to support precision agriculture.

Technologies / Tools Used : Machine Learning, Deep Learning, YOLO Model

Business Sales Performance Analytics | 🐙 Github Jul 2026 - Jul 2026

Data Analyst

- Analyzed business sales data using Python and Pandas to identify trends and performance patterns.
- Performed data cleaning and preprocessing to handle missing, duplicate, and inconsistent data.
- Conducted exploratory data analysis (EDA) across sales, revenue, products, and customer data.
- Developed an interactive Power BI dashboard to visualize key performance indicators and sales trends.
- Transformed raw data into actionable business insights to support data-driven decision-making.

Technologies / Tools Used : Jupyter Notebook, Python, Numpy, seaborn, pandas, ETL, Data Preprocessing and Visualization

Jarvis – Python Voice Assistant | 🐙 Github Dec 2025 - Jan 2026

Python Developer

- Developed a Python-based voice assistant for processing spoken commands and providing voice responses.
- Implemented “Jarvis” wake-word activation to initiate command processing.
- Integrated Google Speech Recognition and pyttsx3 for speech-to-text and text-to-speech interaction.
- Automated common tasks including opening websites and playing predefined music through voice commands.

Technologies / Tools Used : python, Speech Recognition, pyttsx3, Web Automation

SKILLS

Databases :	MySQL, MongoDB
Frameworks & Libraries :	Pandas, NumPy, Scikit-learn, Power BI, Matplotlib, Seaborn, Django
Programming Languages :	Python, SQL
Soft Skills :	Communication, Leadership, Problem Solving, Critical Thinking, Adaptability, Teamwork, Collaboration, Time Management
Tools & Platforms :	Jupyter Notebook, GitHub, VS Code
Core Concepts :	Machine Learning, Artificial Intelligence
Language :	English, Hindi, Kannada

INTERSHIP AND EXPERIENCE

Data Science & Analytics Intern | Future Interns Jul 2026 – Aug 2026

CIN : FIT/JUL26/DS21290

- Analyzed business datasets using **Python, Pandas, and NumPy** to identify trends, patterns, and key insights.
- Performed **data cleaning, preprocessing, and exploratory data analysis (EDA)** to prepare datasets for analysis.
- Developed interactive **Power BI dashboards** using **DAX and Power Query** to track KPIs and communicate business performance.
- Applied **data visualization and storytelling techniques** to present analytical findings and support data-driven decision-making.

CERTIFICATIONS

Python for Data Analysis | 📄 Certificate Oct 2025

Simplilearn

Credential ID : 8928250

Oracle Cloud Infrastructure 2025 certified Data Science Professional Sep 2025

Oracle University

Power BI | 📄 Certificate Oct 2025

Simplilearn

Certificate Code: 9169105

Oracle Cloud Infrastructure 2025 certified Generative AI Professional | 📄 Certificate Nov 2025

Oracle University

Certificate Code : 102258472OCI25JAIOC

Enterprise Design Thinking Practitioner | 📄 Certificate Mar 2026

IBM

AWARDS & ACHIEVEMENTS

Project Morpheus 2026 – National-Level Hackathon Mar 2026

Sinhgad College of Engineering, Pune

- Project Morpheus 2026 – National-Level Hackathon: Selected among 1,000+ participating teams and advanced to the Top 100 teams, qualifying for the final round; contributed to the development of a farm-to-consumer marketplace.
- Issue Date: March 2026
Credential ID: c52c5dcd-328a-4830-ae73-d272101d6bf3

Design Impact Movement Feb 2026

Titan

- Selected for the final round and contributed to SuryaSakhi, a technology-driven solution focused on empowering women through opportunities in solar service and maintenance.
